### Staff Development In The World's Best Work Force Report.

Virginia's staff development is directly related to the World's Best Work Force. Our committee members, district, building and staff development goals are aligned with the WBWF to ensure cohesive training opportunities and PLC direction. 100 percent of our teachers, administrators, and para-professionals have training every year for staff development. As a result, teacher, para-professional and administrative practices as well as student learning outcomes are in tune with our WBWF goals.
